

**TO: THE BOARD OF DIRECTORS
TRINIDAD AND TOBAGO UNIT TRUST CORPORATION**

REPORT OF THE AUDITOR GENERAL OF THE REPUBLIC OF TRINIDAD AND TOBAGO ON THE FINANCIAL STATEMENTS OF THE TRINIDAD AND TOBAGO UNIT TRUST CORPORATION – UTC CORPORATE FUND FOR THE YEAR ENDED 31 DECEMBER, 2020

OPINION

The financial statements of the Trinidad and Tobago Unit Trust Corporation – UTC Corporate Fund (the Fund) for the year ended 31 December, 2020 have been audited. The statements as set out on pages 1 to 18 comprise a Statement of Financial Position as at 31 December, 2020, and the Statement of Profit or Loss, a Statement of Comprehensive Income, a Statement of Changes in Equity and a Statement of Cash Flows for the year then ended, and Notes to the Financial Statements numbered 1 to 11, including a summary of significant accounting policies.

2. In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Trinidad and Tobago Unit Trust Corporation – UTC Corporate Fund as at 31 December, 2020 and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

BASIS FOR OPINION

3. The audit was conducted in accordance with accepted auditing standards. The Auditor General's responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of this report. The Auditor General is independent of the Fund in accordance with the ethical requirements that are relevant to the audit of the financial statements and other ethical responsibilities have been fulfilled in accordance with these requirements. It is my view that the audit evidence obtained is sufficient and appropriate to provide a basis for the above audit opinion.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

4. Management of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with IFRS and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

5. In preparing the financial statements, management is responsible for assessing the ability of the Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

6. Those charged with governance are responsible for overseeing the Fund's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

7. The Auditor General's responsibility is to express an opinion on these financial statements based on the audit and to report thereon in accordance with section 30 (4) of the Unit Trust Corporation of Trinidad and Tobago Act, Chapter 83:03.

8. The Auditor General's objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes his opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

9. As part of an audit in accordance with accepted auditing standards, the Auditor General exercises professional judgment and maintains professional skepticism throughout the audit. The Auditor General also:

- Identifies and assesses the risks of material misstatement of the financial statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence that is sufficient and appropriate to provide a basis for an opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Fund.
- Evaluates the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Concludes on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Fund to continue as a going concern. If the Auditor General concludes that a material uncertainty exists, the Auditor General is required to draw attention in his audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify his opinion. The Auditor General's conclusions are based on the audit evidence

obtained up to the date of his audit report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

- Evaluates the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

10. The Auditor General communicates with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that were identified during the audit.

UTC CORPORATE FUND

Notes to the Financial Statements

For the year ended 31 December, 2020

Expressed in Trinidad and Tobago Dollars

1) General Information

The UTC Corporate Fund (the Fund) is a fixed income mutual fund denominated in Trinidad and Tobago Dollars that was launched on 8 December 2014. The Custodians of the Fund are the Central Bank of Trinidad and Tobago and Citibank New York. The Fund invests in accordance with its Investment Policy Statement and guidelines approved by the Board of the Trinidad and Tobago Unit Trust Corporation (The Corporation). The Corporation is the Sponsor, Manager, Trustee and Investment Advisor of the Fund. Responsibility for management of the business affairs of the Fund is vested in the Board of Directors of the Corporation which approves all significant agreements of the Fund. The Corporation's registered office is located at UTC Financial Centre, 82 Independence Square, Port of Spain.

Participation by investors in the Fund is represented by units which are equivalent to a proportion of the Fund's net asset value. There is no limit to the number of units that may be issued. Each unit attracts an equal share in the net asset value and other benefits of the Fund.

Operations

As at 31 December 2018 the Trinidad and Tobago Unit Trust Corporation was the only unitholder in the Fund. As changes in investor appetite made the Fund's offering an attractive option, at the end of 2019 the Fund restarted accepting new investors in the form of corporate investors and the general public.

Subscriptions

The price of a unit is fixed at TT\$100.00 per unit and may be purchased through the Corporation's distribution channels including the Corporation's authorized agents. The minimum initial investment is TT\$1,000,000.00.

Redemptions

Units can be redeemed on any business day at a price per unit of TT\$100. Redemption of units is executed via an original Redemption Form in accordance with the policies of the Corporation. Proceeds on redemption are paid in TT dollars.

Reinvestments

Income is compounded daily and credited to Unitholders' accounts on a quarterly basis, (31 March, 30 June, 30 September and 31 December). Income earned during any distribution period is reinvested unless otherwise requested by Unitholders.

Management Charge

The Corporation may impose an annual management charge of up to 2% of the market value of the net assets of the Fund.

Investment Objective

The Fund's objective is to provide investors with capital preservation and current income by investing its capital in cash, near cash instruments, bonds and other fixed income securities issued by corporations and sovereigns.

2) Significant Accounting Policies

The significant accounting policies applied in the preparation of these Financial Statements (the Financial Statements) are set out below. These policies have been consistently applied to all years presented, except as described in Note 2 (b).

a) Basis of Preparation

- i. The Financial Statements have been prepared in accordance with International Financial Reporting Standards (IFRS).
- ii. The Financial Statements are prepared under the historical cost convention as modified by financial assets measured at fair value through profit or loss (FVPL). The methods used to fair value the Fund's financial assets are provided at Note 5.
- iii. The Financial Statements are presented in Trinidad and Tobago dollars, which is the functional currency of the Fund.
- iv. The preparation of the Financial Statements in accordance with IFRS requires management to make judgements, estimates and assumptions. Management reviews these judgements, estimates and underlying assumptions on a regular basis.
- v. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are those used in estimating the fair value of financial assets categorized as Level 3 (see Note 5 (c)).

Management has exercised significant judgement in determining the business model of the investment portfolio.

vi. COVID-19

Operations

In response to the COVID-19 coronavirus pandemic, in March 2020 the Government of Trinidad and Tobago instituted several measures to curtail the virus's spread, including at the onset: periodic lock-downs, stay-at-home measures for non-essential workers, and travel bans and latterly: social distancing protocols, social gathering limitations, and continued border closures.

The Fund was regarded as an essential business (along with other financial institutions such as banks and insurance companies) and as such maintained business operations throughout 2020. In an effort to ensure the safety of the Fund's unitholders and the Sponsor's team members, the Sponsor of the Fund took the decision to migrate the majority of non-customer-facing staff members to working from home. At the time of this report, the Investment Centres and Agencies through which the Fund is distributed have returned to full operations, in line with Government guidelines. The Sponsor's non-customer-facing staff members have continued to work primarily from home and the Sponsor does not anticipate a requirement for these team members to mandatorily return to office in the immediate short term.

Financial statement impact

The Fund's annual financial statements have been affected by the pandemic in primarily two aspects:

- The business model for the Fund's financial assets is Fair Value Through Profit or Loss (FVPL – see Note 2 (d)); consequently, the Fund's performance is materially impacted by market price movements. At the onset of the pandemic, financial markets responded by driving asset prices down due to the then-existing uncertainty and the Fund recognized a material level of fair value losses. Since then, financial markets have rebounded, and the Fund's losses have reversed to produce a fair value gain of \$4 million for the year ended 31 December 2020 through the Statement of Comprehensive Income.
- The Fund earned a lower level of interest as a result of across-the-board interest rate declines. The Fund expects this situation to continue in 2021.

Risk management

The Sponsor routinely undertakes stress testing on the Fund to determine the potential impact of multiple adverse possible outcomes and to implement proactive risk mitigating strategies. The stress testing considers various factors that can have a negative impact on investment securities including changes to interest rates, credit ratings, foreign exchange rates and redemption levels.

The Sponsor has continued to monitor the various risks the Fund faces (market, liquidity, and credit risk) but has not found it necessary to take additional measures to limit the Fund's risks apart from adjusting the Fund's portfolio holdings at the onset of the pandemic to exit or reduce certain exposures. As the economic and financial impact of the pandemic became clearer, the Sponsor re-established the Fund's position selectively. The Sponsor will continue to closely manage the Fund's portfolio holdings and adjust the Fund's position accordingly. The Sponsor has historically managed the Fund's liquidity risk conservatively and did not experience any liquidity pressures during the year and it does not currently anticipate a liquidity challenge in 2021.

Reliefs and/or concessions

For the year ended 31 December 2020, the Fund did not receive any reliefs or concessions from the Government of Trinidad and Tobago related to the pandemic.

Basis of preparation and subsequent events

Globally, the development of COVID-19 remains uncertain, with consequences that are difficult to predict. Notwithstanding these uncertainties, the Sponsor believes the Fund can withstand materially unfavourable financial impacts, should they arise, and therefore the going concern basis of accounting remains appropriate.

The major area where judgement could be required would be changes to estimation techniques and assumptions for measuring the fair value of financial assets.

The Sponsor is not aware of material events occurring after its Statement of Financial Position date that require either adjusting or disclosure in these financial statements.

b) Standards and amendments to existing standards effective 1 January 2020

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2020 that have a material effect on the financial statements of the Fund.

UTC CORPORATE FUND

Notes to the Financial Statements (continued)

For the year ended 31 December, 2020

Expressed in Trinidad and Tobago Dollars

2) Significant Accounting Policies (continued)

c) New standards, amendments and interpretations effective after 1 January 2020 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2020 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

d) Financial Assets

The Fund's financial assets consist of:

- i. Investment securities;
- ii. Cash and cash equivalents; and
- iii. Receivables

The Fund recognizes a financial asset when it becomes party to the contractual obligations of the financial asset.

The Fund derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expires or where the Fund has transferred substantially all the risks and rewards of ownership of the financial asset to another party.

Classification and measurement of financial assets

The Fund classifies its financial assets based on the business model of the portfolio within which the financial asset is managed and the contractual cash flow characteristics of the financial asset.

In assessing the objective of a portfolio's business model, the Fund considers:

- i. The way in which the assets within the portfolio are managed and information provided to management;
- ii. The stated policies and objectives of the portfolio;
- iii. The operation of the portfolio's stated policies in practice;
- iv. The method of evaluating the performance of the portfolio; and
- v. The risks that affect the performance of the portfolio and how those risks are managed.

The Fund's investment securities are held in portfolios which are managed and evaluated on a fair value basis. The receipt of contractual cash flows or, the receipt of contractual cash flows and the purchase and sale of the financial assets in the portfolio, are incidental to the objectives of the portfolios. Accordingly, the assets in the Fund's portfolios have been classified and measured at FVPL – mandatory.

e) Financial Liabilities

The Fund recognizes a financial liability when it becomes party to the contractual obligations of the financial instrument. A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired.

f) Fair Value Estimation – Investment Securities

Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Fund has access at that date.

Valuation framework

The Fund has established a control framework for the measurement of fair values. The framework includes a valuation team that is independent of the front office management. The valuation team reports to a Valuation Committee comprising the Vice Presidents of the Finance, Trust Services and Risk Departments. Valuations are reviewed by the Valuation Committee on a quarterly basis.

Fair value hierarchy

Fair value measurements of securities are categorized into three levels based on the degree to which the fair value measurement inputs are observable. The three levels are:

- **Level 1.** Level 1 Valuation inputs are unadjusted quoted prices for identical assets and liabilities in active markets that the entity can access at the measurement date.
- **Level 2.** Level 2 Valuation inputs exclude Level 1 inputs but are inputs that are observable for the asset or liability either directly or indirectly. There were no assets classified as Level 2 during the years 2019 and 2020.
- **Level 3.** Level 3 Uses significant inputs that are unobservable in the valuation of the asset.

The level within the fair value hierarchy to which fair value measurements are assigned is determined by the lowest level input that is significant to the fair value measurement in its entirety. Thus, where a fair value measurement requires significant judgement with respect to an input, it is classified as Level 3.

The Fund considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

Traded local and foreign bonds

Traded bonds are valued using indicative quotations at the reporting date from a reputable pricing service. The quotations do not necessarily reflect the price at which a broker would be willing to execute a transaction and the valuations have been categorized as Level 3. Where the Fund is in receipt of prices at which bonds can be traded, the bonds are categorized as Level 1.

Unquoted local bonds

The Fund uses an internally developed model to value its unquoted local bonds. Management reviews the model regularly to incorporate enhancements in line with established best practice. Although no material changes were made during the current financial year, effective 1 January 2019, the Fund's Valuation Committee approved the following improvements to the model.

- Application of bootstrapping methodology to construct a zero-coupon yield curve; previously the Fund used par yield curves.
- Use of an extrapolation function to estimate the short end of the yield curve.
- Incorporation of industry specific spreads and credit ratings. The Fund now uses the Global Industry Classification Standard (GICS) to estimate the spread desirable for each bond.

The output of any valuation model is an estimate of a value that cannot be determined with certainty. As such the valuation may vary significantly from the value that would be realized in an actual transaction. Valuations based on the model are categorized as Level 3.

Categorization of short-term investments

The Fund's short-term investments are assumed to be encashable/tradeable at their carrying value and are categorized as Level 1.

Receivables, payables and short-term liabilities

The carrying value of receivables and payables, which are of a short-term nature, are assumed to approximate their fair values.

g) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, cash balances at brokers, and other short-term instruments with original maturities of ninety days or less.

h) Revenue Recognition

Interest income is recognized in the Statement of Comprehensive Income using the effective interest method. Realized and unrealized investment gains and losses are recognized as income in the Statement of Comprehensive Income.

i) Taxation

The Fund is exempt from Corporation Tax. Withholding tax is payable on interest earned in foreign jurisdictions based on the jurisdiction's tax laws and double taxation treaties where applicable.

Taxes are recognized as an expense in the period in which they arise.

3) Cash And Cash Equivalents

	31-Dec-20 \$'000	31-Dec-19 \$'000
Cash at bank	1,518	1,067
Total	1,518	1,067

4) Receivables

	31-Dec-20 \$'000	31-Dec-19 \$'000
Interest receivable	1,525	77
Total	1,525	77

UTC CORPORATE FUND

Notes to the Financial Statements (continued)

For the year ended 31 December, 2020

Expressed in Trinidad and Tobago Dollars

5) Investment Securities

Summaries of the Investment Securities held by the Fund are provided by year, investment type and classification below.

	31-Dec-20 \$'000	31-Dec-19 \$'000
Investment securities carried at fair value		
Bonds	287,590	16,514
Short-term investments	20,388	4,980
Total	307,978	21,494

Investment securities summarized by classification

	31-Dec-20 \$'000	31-Dec-19 \$'000
- At fair value through profit or loss – mandatory (FVPL – M)	307,978	21,494
Total	307,978	21,494

a) The Fair Value Hierarchy for Investment Securities

The Fund uses a valuation hierarchy to rank the fair value of its Investments (see Note 2 Fair Value Estimation). The Fund's Investments at December 2020 are analysed by their fair value hierarchy below:

Fair Value Hierarchy for Investment Securities December 2020

Recurring fair value measurements	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Investment securities carried at fair value through profit or loss - mandatory				
Bonds	-	-	287,590	287,590
Short-term investments	20,388	-	-	20,388
Total Investment Securities	20,388	-	287,590	307,978

The Fund's Investments at 31 December 2019 are analysed by the fair value hierarchy below:

Fair Value Hierarchy for Investment Securities December 2019

Recurring fair value measurements	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Investment securities carried at fair value through profit or loss - mandatory				
Bonds	-	-	16,514	16,514
Short-term investments	4,980	-	-	4,980
Total Investment Securities	4,980	-	16,514	21,494

b) Transfers between Fair Value Hierarchy Levels

There were no transfers between the Fair Value Hierarchy Levels during either 2020 or 2019.

c) Valuation Techniques used to derive Level 3 Fair Values

The valuation techniques used by the Fund to arrive at the fair value of Level 3 investments are set out in Note 2. The Tables below summarize the valuation techniques used in estimating the fair value of Level 3 securities, the significant unobservable inputs, the relationship of the unobservable inputs to fair value and the impact that an increase or decrease in the unobservable inputs would have had on the valuation results.

Values in the following four (4) Tables are expressed in millions of dollars.

Summary of Techniques used to value Level 3 Financial Assets in 2020

Investment securities carried at fair value through profit or loss - mandatory	Level 3 fair value 2020 \$'M	Valuation Technique used	Significant unobservable inputs	Possible shift in inputs +/-	Change in valuation +/- \$'M
Bonds	288	Valuation model, Trading prices	Interest rates, spreads	+1%	3
TOTAL	288				3

Fair value through profit or loss - mandatory	Carrying Value Level 3 Securities 1/1/2020 \$'M	Purchases/ Capitalized Interest \$'M	Sales/ Repayments/ Maturities \$'M	Net Gains/ (Losses) recognized in Profit or Loss \$'M	Carrying Values Level 3 Securities 31/12/2020 \$'M	Fair Values \$'M

TOTAL	17	436	(169)	4	288	288

Summary of Techniques used to value Level 3 Financial Assets in 2019

Investment securities carried at fair value through profit or loss - mandatory	Level 3 fair value 2019 \$'M	Valuation Technique used	Significant unobservable inputs	Possible shift in inputs +/-	Change in valuation +/- \$'M
Bonds	17	Valuation model, Trading prices	Interest rates, spreads	+1%	0.2
TOTAL	17				0.2

Fair value through profit or loss - mandatory	Carrying Value Level 3 Securities 1/1/2019 \$'M	Purchases/ Capitalized Interest \$'M	Sales/ Repayments/ Maturities \$'M	Net Gains/ (Losses) recognized in Profit or Loss \$'M	Carrying Values Level 3 Securities 31/12/2019 \$'M	Fair Values \$'M
Bonds	-	17	-	-	17	17
TOTAL	-	17	-	-	17	17

d) The Fund's exposure to market, credit and liquidity risk on its investments is provided at Note 9.

6) Payables

	31-Dec-20 \$'000	31-Dec-19 \$'000
Amounts due to the Corporation (see Note 10)	65	4
Distribution payable	1,675	40
Other payables	48	1
Total	1,788	45

7) Distribution to Unitholders

Distributions allocated to Unitholders for the year ended 31 December 2020 was \$3,717 (Dec 2019: \$39.7). The next distribution period is January to March 2021.

UTC CORPORATE FUND

Notes to the Financial Statements (continued)

For the year ended 31 December, 2020

Expressed in Trinidad and Tobago Dollars

8) Unitholders' Capital

This represents the capital value of units issued by the Fund. The Fund is responsible for redemption of its units. The movement in the balance of Redeemable units is summarized below.

	31-Dec-20 \$'000	31-Dec-19 \$'000
Opening balance Unitholders' Capital 1 January	22,453	5,148
Add: Sales	484,625	17,305
Less: Repurchases	(201,427)	-
Net Sales	283,198	17,305
Closing Balance 31 December	305,651	22,453

9) Financial Risk Management

Financial Risk Exposures

The primary financial risks to which the Fund is exposed are:

- i. market risk - which comprises of bond price risk and interest rate risk
- ii. credit risk; and
- iii. liquidity risk

Market Risk

Market risk is the risk that changes in market prices, for example bond prices and interest rates, will affect the Fund's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing returns.

Bond Price Risk

Bond price risk is the risk that the fair value of the financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment or its issuer or factors affecting all instruments traded in the market.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Fund's interest risk exposure arises primarily on fixed rate debt securities held.

The Fund manages the overall interest rate risk by making judicious adjustments of the overall weighted average term to maturity (duration) of its portfolios.

The following Tables demonstrate the sensitivity of the Fund's profit or loss for the year to a reasonable possible change in interest rates, with all other variables held constant. The sensitivity of the profit or loss for the year is the effect of the assumed change in interest rates on:

- i. The interest income for one year, based on the floating rate assets held at the end of the reporting period; and
- ii. Changes in the fair value for the year, based on revaluing fixed rate financial assets at the end of the reporting period.

	Change in basis points	Sensitivity of interest income Increase/ decrease \$'000	Sensitivity of changes in fair value of investments \$'000
31 December 2020	\$'000	\$'000	\$'000

T&T interest rates 100 - 2,876

	Change in basis points	Sensitivity of interest income Increase/ decrease \$'000	Sensitivity of changes in fair value of investments \$'000
31 December 2019	\$'000	\$'000	\$'000

T&T interest rates 100 - 165

Bonds measured at fair value through profit or loss	-	16,535	16,535
Rate Re-pricing Position	6,067	16,535	22,602

Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will default on its financial obligations, that is, it fails to make full and timely payments of scheduled interest and/or principal sums due.

The Fund is exposed to credit risk primarily on debt securities, short-term investments and bank balances. The carrying value of these assets represents the Fund's maximum exposure to credit risk on financial instruments on the respective reporting dates.

Credit risk is managed by:

- i. subjecting counterparties to robust credit risk assessments prior to initial acquisition;
- ii. limiting the acquisition or retention of debt instruments to certain credit ratings; and
- iii. regular review, measurement and monitoring of counterparties' credit ratings.

The quality of the Fund's debt securities, money market fund and bank balances is analysed in the Table below into high, moderate and low using ratings primarily from international rating agencies and local rating agencies for either the instrument, the issuer, the sponsor in the case of Bond ETFs or the sovereign in the case of State owned entities. In those few instances where instruments were rated internally, the ratings were mapped to the international credit quality grades used by Standard and Poor's.

	2020 \$'000	2019 \$'000
Securities rated by S&P as AAA to BBB-, are considered high credit quality instruments		
- Bonds	287,590	16,514
- Short-term instruments	20,388	4,980
- Bank balances	1,518	1,067
Total	309,496	22,561

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset as they become due.

The units of the Fund are redeemable on demand. The risk is mitigated by holding adequate cash, cash equivalents and short-term investments. In addition, substantial portions of the investments held by the portfolios are tradable.

UTC CORPORATE FUND
