

## CHAIRMAN'S REPORT

Dear Valued Unitholders,

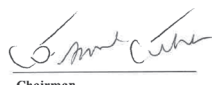

As at 31 March 2023, the Calypso Macro Index Fund ("Calypso" or "the Fund") recorded a Net Asset Value (NAV) of \$30.32 per unit which was comparable to the prior period NAV of \$30.34 per unit. We continue to be encouraged by the overall performance of this Fund as it tracks the performance of the local equities market and proxy energy sector.

The Fund recorded a Total Comprehensive Loss of \$16 million for the period ended 31 March 2023 compared to a Total Comprehensive Income of \$72 million for the comparative period ended 31 March 2022. The lower reported result arose from a swing in fair value movements, from a gain of \$70 million in the prior period to a loss of \$19 million for the three months ended 31 March 2023.

These non-cash movements resulted mainly from a decline in energy exchange traded funds (ETF) prices due to a fall in international energy and gas prices from tight overall supply and further cuts from Russia.

Distributions to investors continued to be based on cash income received, as outlined in the Fund's prospectus. Distributions increased by 21% from \$0.24 per unit for the period ended 31 March 2022 to \$0.29 per unit for the period ended 31 March 2023. The higher pay-out was mainly due to improved returns from the portfolio's energy ETFs.

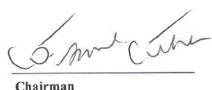

The Fund continues to comprise high-quality investments, both locally and internationally. Consequently, we remain optimistic that short-term price volatility will not diminish the long-term prospects of the underlying businesses and industries reflected in the portfolio holdings.

  
Chairman
